## 1. Objective

The aim of milestone 1.2 is **to develop guidelines to gather information from literature and available data.**

## 2. Guideline

The guideline in the form of a standard Excel sheet has been prepared to facilitate FOODLEVERS partners developing a national database for the organic farming sector (**Attachment 1<sup>1</sup>**). The file includes a list of indicators for each partner country, corresponding variables, units, data year, data availability and indicator values. Different sources of national data are highlighted separately.
